## MYSORE DEPARTMENT OF HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE, FOR THE WEEK ENDED THURSDAY, JANUARY 19, 1933.

A total of 68 attacks with 50 deaths from plague was returned during the week against 90 attacks with 70 deaths in the previous week. The Cities of Bangalore and Mysore and Kolar Gold Field Area returned 8 attacks with 5 deaths, 6 attacks with 5 deaths and 13 attacks with 7 deaths, respectively. Comparative figures for the corresponding week in 1932 and 1931, were 117 attacks with 82 deaths and 68 attacks with 53 deaths, respectively.

Nineteen attacks with five deaths from small-pox were reported from two villages in Sagar Taluk, one village in Mandya Taluk and from the Cities of Bangalore and Mysore.

The State remained free from cholera influenza, and relapsing fever.

The total mortality for Bangalore City amounted to 118, representing a calculated annual ratio of 35.60 per mille of population against the average ratio of 37.72 for the corresponding week of last year. Classified according to causes, the deaths numbered—5 under plague, 3 under small-pox, 12 under broncho-pneumonia, 13 under pneumonia, 2 under other fevers, 4 under phthisis, 11 under dysentery and diarrhoea and 70 under all other causes.

During the week, the Civil and Military Station, Bangalore, returned 73 deaths representing a calculated annual ratio of 28.30 per mille of population as against the average ratio of 38.47 for the corresponding week of last year. Classified according to causes, the deaths were broncho-pneumonia 12, pneumonia 3, typhoid 2, other fevers 2, phthisis 4, dysentery and diarrhoea 6 and all other causes 44.

The total mortality for Mysore City was 51, representing a calculated annual ratio of 24.75 per mille of population as against the average ratio of 33.36 for the corresponding week of last year. Classified according to causes, the deaths were—plague 5, malaria 2, broncho-pneumonia 2, pneumonia 2, typhoid 1, dysentery and diarrhoea 7 and all other causes 32.

There were 62 deaths from all causes in Kolar Gold Field equivalent to a calculated annual ratio of 37.68 per mille of population against the average ratio of 31.44 for the corresponding week of last year. Classified according to causes, the deaths numbered—7 under plague, 1 under pneumonia, 1 under typhoid, 6 under other fevers, 2 under phthisis, 8 under dysentery and diarrhoea and 37 under all other causes.

J. V. KARVE,
